THE GLOBAL FUND - INSPI(RED) BY (RED)

BENEFITING: [United Nations Foundation](#)

EVENT: [The Cash & Rocket \(RED\) Tour](#)

EVENT DATE: JUN 24, 2012

THE STORY:

Sara Cerrell is on Tour!

I have joined (RED) on its European road tour to ensure every child is born free from HIV and has a chance to dream.

Imagine a childhood without dreams. In Africa, this is a reality for millions of children, but it doesn't have to be that way.

Every day, 1,000 babies are born with HIV. By 2015 that number could be near ZERO. (RED) is focusing all its efforts on helping to deliver this monumental milestone. What better way to contribute to an HIV-free generation than to align with 70 like-minded women who are driving across Europe to raise funds ensuring every child is born free from HIV and has a chance to dream? I have joined the Cash & Rocket (RED) Tour, which starts in London on June 7th, stops in Paris and Milan and ends in Monte Carlo on June 10th. I am doing the first leg of the tour, driving from my home in London to my favorite city, Paris, on June 8th. I have been blessed to be part of this journey and I am excited to see what the future holds for us all.

MKULTRA involved the development of drugs to be used for behavior control which were administered to some subjects who had been misinformed of the project and some who were not asked to be subjects at all. It also involved the use of electrical implants and methodologies for "erasing" the human personality and "reprogramming" that personality to suit the agenda of the CIA. Their stated objectives were to override the human will and even to create a programmed assassin. They also used defenseless children and even infants in their experimenting and deliberately induced multiple personalities in minor subjects using sexual abuse, themes from Walt Disney productions and even religious language to program children to become slaves for the New World Order.

Dr. Carol Rutz author of *A Nation Betrayed* was also a victim of government abuse and mind control experimentation. One of the women that Carol interviewed for her book described "eye experiments" at a residential school. The experiments involved attempts change the eye color of the students at the school. As a child Dr Rutz knew Dr. Joseph Mengele as Dr. Black whose pet project was changing eye color. Dr. Mengele worked alongside Dr. Sidney Gottlieb, Dr. Ewen Cameron and others.²¹⁵ Dr. Mengele led the National Socialist Mind control program at the Kaiser-Wilhelm institute in Berlin and also at Auschwitz.²¹⁶ He also designed the MKUTRA project MONARCH.²¹⁷ Dr. Mengele perfected the "science" of inducing split personalities in children who were the subjects of Project Monarch. He perfected this concept on mass experimentation of inmates in concentration camps in Germany. Jennifer Greene was another one of his victims who changed

Here is a great example of Americans using armed force to restore an honest vote count

The Battle of Athens, Tennessee - 2 AUGUST 1946

On 2 August 1946, some Americans, brutalized by their county government, used armed force to overturn it. These Americans wanted honest, open elections. For years they had asked for state or Federal election monitors to prevent vote fraud -- forged ballots, secret ballot counts, and intimidation by armed sheriff's deputies -- by the local political boss. They got no help.

These Americans' absolute refusal to knuckle-under had been hardened by service in World War II. Having fought to free other countries from murderous regimes, they rejected vicious abuse by their county government. These Americans had a choice. Their state's Constitution - Article 1, Section 26 - recorded their right to keep and bear arms for the common defense. Few "gun control" laws had been enacted.

SEE THIS, IT IS WELL WORTH LEARNING ABOUT. [Returning world war 2 vets use force to take their county back](#)

We are grateful to The Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion of almost forty years. It would have been impossible for us to develop our plan for the world if we had been subjected to the bright lights of publicity during those years. But the work is now much more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto determination practiced in past centuries.

Docs tell of death cult

By AVRIL CONNARD

MEMBERS of the Royal Family are involved with a worldwide network of Satanic child abusers, it was claimed yesterday.

And Government ministers are also active in the evil cult, said two leading doctors.

Their amazing allegations of ritual sex and slaughter will be screened later this month in a grisly ITV documentary.

It includes sickening evidence that children have been butchered for so-called "snuff movies."

And one of the medics, Birmingham therapist Jim Phillips, claims most of his women

The Real Menace of our republic is this invisible government which is like a giant octopus, sprawls it's slimy length over the city, state and nation. Like the octopus of real life, it operates under cover of a self created screen. At the head of this octopus are the Rockefeller Standard Oil interest and a small group of powerful banking houses generally referred to as 'international bankers'. The little coterie of powerful international bankers virtually run the United States government for their own selfish purposes. They practically control both political parties.

The Dream Boxes of Gloria Vanderbilt

By Joyce Carol Oates

Originally published in [Ontario Review](#), Fall/Winter 2001-2002

The first inspiration for the Dream Boxes probably started when, as a child, I became fascinated by those glass balls which, when shaken, cause snow to swirl, drawing me into a world that had order, one that

Vanderbilt's is essentially a miniaturist's art, expressing massive emotions and paradoxes. The Dream Boxes are elliptical, irresolute, teasing; their wit is difficult to suggest by way of photography, a notoriously two-dimensional medium. If the Dream Boxes embalm their subjects, the Dream Boxes also exalt and memorialize those subjects. We gaze into them as into subtly distorting mirrors.
